Poznan, the 12th January 2021

Ladies and Gentlemen,

PUMS Doctoral School has received funding for the project "Towards unmet clinical and educational needs at PUMS" submitted within the STER Program - Internationalization of doctoral schools of the National Agency for Academic Exchange NAWA.

The project, referred to as PUMSTER with finance amount of 2,218 000 PLN (505 000EUR) was implemented on the 4th of January this year by our Doctoral School team. The awarded project was among 12 selected from 34 submitted by Polish universities and institutes of the Polish Academy of Sciences. We emphasize with great satisfaction that we are the only medical university awarded funding among the awarded institutions.

PUMSTER will allow for the development of long-term international cooperation and will perfectly meet all "unmet needs" of our Almae Matris in the field of education, science, clinical trials, and broadly understood cooperation, also with industry-

As part of this project, we have the opportunity to invite, from the 1st of April, 6 doctoral students from abroad who, after passing the qualification procedure and presenting the research plan, will become full-fledged doctoral students for 3-year program-

Therefore, I would like to invite your university graduates and students of the last carry out their doctoral dissertations under two Supervisors' mentorship, including one Promoter from abroad, who, together with PUMS promoters, will guide these students. We offer scholarship in amount 5000PLN/month (about 1100EUR/month), and many fully financed opportunities of research internships in various institutions around the world. Soon we will present further information to those interested in our initiative. However, due to the short time that NAWA gave us to start recruitment, we would like to get you interested in this project as soon as possible.

Within PUMSTER-our doctoral students will be supervised by the best scientists and educators from our University and research units of world renown.

All those interested please send us an email: doctoralschool@ump.edu.pl

Yours faithfully

Ewa Wender- Ożegowska, MD, Prof.

Vice-Rector for Doctoral School and Postgraduate Education
